Ein Nest aus Wasser: fürsorgliche Krabben im tropischen Jamaika. Dies ist der erste Film, der vom Landgang der Krabben handelt. Jamaika beherbergt eine unglaubliche Vielfalt an Landkrabben, die sehr verschiedene Lebensräume besiedelten, sogar die Baumkronen, wo die Bromelienkrabbe ihre Jungen wie ein Vogel im Nest aufzieht. Der Film folgt dem Weg der Evolution der Krabben vom Meer bis in die Baumkronen. Diesel, R. 2001.
